

EU INVOICING COMPLIANCE MADE EASY

Ensuring compliance with EU invoicing standards.

ELITE 3E add-on simplifies your invoicing process significantly.

Ensure Compliance. Preserve Integrity.
ELITE 3E Enhancement for EU
E-Invoicing Readiness.

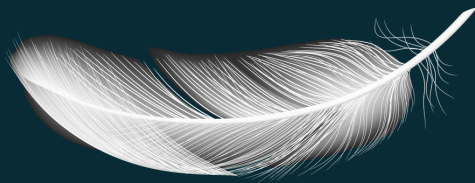

Context & Regulatory Landscape

The European Norm EN 16931 introduces structured e-invoicing requirements across the EU, with phased implementation beginning January 1st, 2026 and full compliance expected Union-wide by 2028. Legal practices operating within or billing into affected jurisdictions will need to adhere to these new standards.

About the Solution

Aevelon's ELITE 3E add-on delivers a seamless, compliant invoicing solution — enabling law firms to meet upcoming e-invoicing requirements while maintaining operational efficiency.

Key capabilities include:

Automated XML Embedding in PDFs

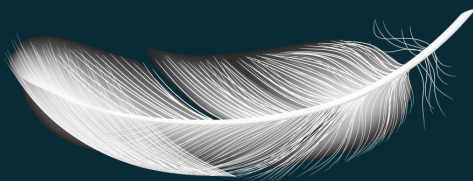

Invoices generated in ELITE 3E include EN 16931-compliant XML, embedded directly in the PDF for client-side processing.

Standalone XML / UBL Export

Structured invoice transmission for government platforms or networks such as Peppol.

Monitoring dashboard

Enables easy tracking of invoices and error resolution

Jurisdictional Extensions

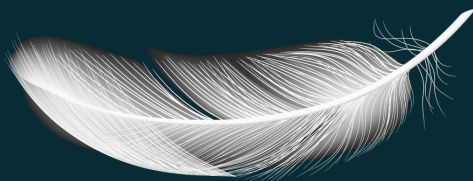

Preconfigured support for regional legal requirements in:

-  Germany
-  Belgium
-  France
-  The Netherlands
-  Luxembourg

Detailed Line Item Display

Support for invoice lines with discounts, premiums, and extended metadata — fully configurable.

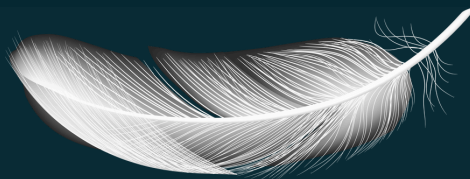

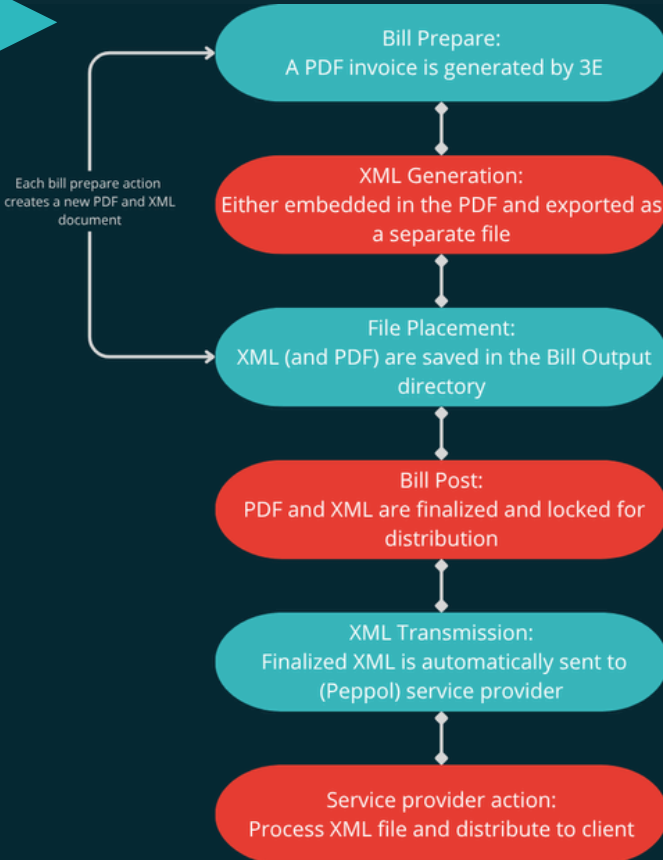

Developed for Legal Professionals
